VAL SABBIA

LA STORIA

Il patron della nostra azienda, Vittore Bianchi vanta una ricca e lunga esperienza nel settore artigianale. I suoi esordi lavorativi lo hanno visto impegnato nel campo dell'automotive, dove ha affinato le sue naturali doti di curiosità e dedizione per il proprio lavoro e per il prodotto che era intento, di volta in volta, a realizzare. Chiusa questa prima esperienza, si è avvicinato, in qualità di agente di vendita di un prodotto ausiliario (le vernici) al mondo delle maniglie e delle realtà che le producevano. In quella fase, sul finire degli anni Settanta, la terra d'origine di Vittore era già conosciuta come uno dei più importanti distretti industriali delle maniglie. Centinaia di operatori della vallata, con migliaia di collaboratori, erano impegnati in questo settore, espressione del Made in Italy. L'innata curiosità di Vittore ha portato a fondare una azienda che effettuava lavorazioni per conto terzi, nell'ambito dell'articolata filiera produttiva delle maniglie. Questa prima esperienza imprenditoriale era nata durante uno dei periodi più dinamici del distretti delle maniglie valsabbino: non mancavano certo le occasioni per ampliare il proprio business a chi, come Vittore, era dotato di spirito d'intraprendenza. Non è un caso infatti che in nostro fondatore abbia partecipato a fiere e rassegne internazionali del settore, con l'obiettivo di comprendere le esigenze e le specifiche richieste degli operatori internazionali, che erano a contatto con i clienti – aziende e privati – fruitori finali delle maniglie. Forte di questa esperienza, Vittore fonda nel 1986 la Fimet, acronimo di Finitura Metalli. In quell'anno il mercato di riferimento delle produzioni della nuova azienda era quello tedesco ma ora, a distanza di quasi un trentennio dagli esordi, i mercati raggiunti e serviti dalle produzioni dell'azienda della famiglia Bianchi sono oltre venti. I figli di Vittore sono impegnati attivamente nella ditta, Luca è responsabile della qualità e della produzione, mentre Marica è responsabile delle vendite. Il carattere familiare dell'azienda è infatti il suo punto di forza "non ci limitiamo a produrre maniglie, ma ne curiamo ogni aspetto, dalla ideazione fino alla finitura, siamo orgogliosi di rappresentare il made in Italy".

HISTORY

The owner of our company, Vittore Bianchi has a rich and long experience in the craft field. First he has been engaged in the automotive field, where he honed his natural curiosity and dedication to its own work and for the product that he was concentrated, from time to time, to realize. Closed this first experience, he approached, as a sales agent of an auxiliary product (paint), the world of handles and the realities that produced them. At that stage, in the late seventies, the birthplace of Vittore was already known as one of the most important industrial areas of the handles production. Hundreds of entrepreneurs in the valley, with thousands of employees, were engaged in this sector, expression of Made in Italy. The innate Vittore's curiosity, combined with his entrepreneurial spirit, led him to found a company which carried out work for third parties, as part of the articulated chain of the handles production. This first experience was born during one of the most dynamic districts handle Valsabbia: there were some opportunities to expand the business to those who, like Vittore, was endowed with the spirit of enterprise. It is no coincidence that our founder has participated in international exhibitions and fairs of the sector, with the aim to understand the needs and the specific requirements of international operators, who were in contact with the final customers. Based on this experience, Victor founded in 1986 Fimet, acronym of metal finishing. In that year the reference market of the new company was the German one but now, after almost thirty years from the beginning, the markets reached and served by the company of the Bianchi family are over twenty. The children of Vittore are actively involved in the company, Luca is responsible for quality and production, while Marica is responsible for sales. The family nature of the company is its strong point "we do not just produce handles, but we take care of everything from conception to finish, we are proud to represent the Made in Italy".

IL NOSTRO OBIETTIVO

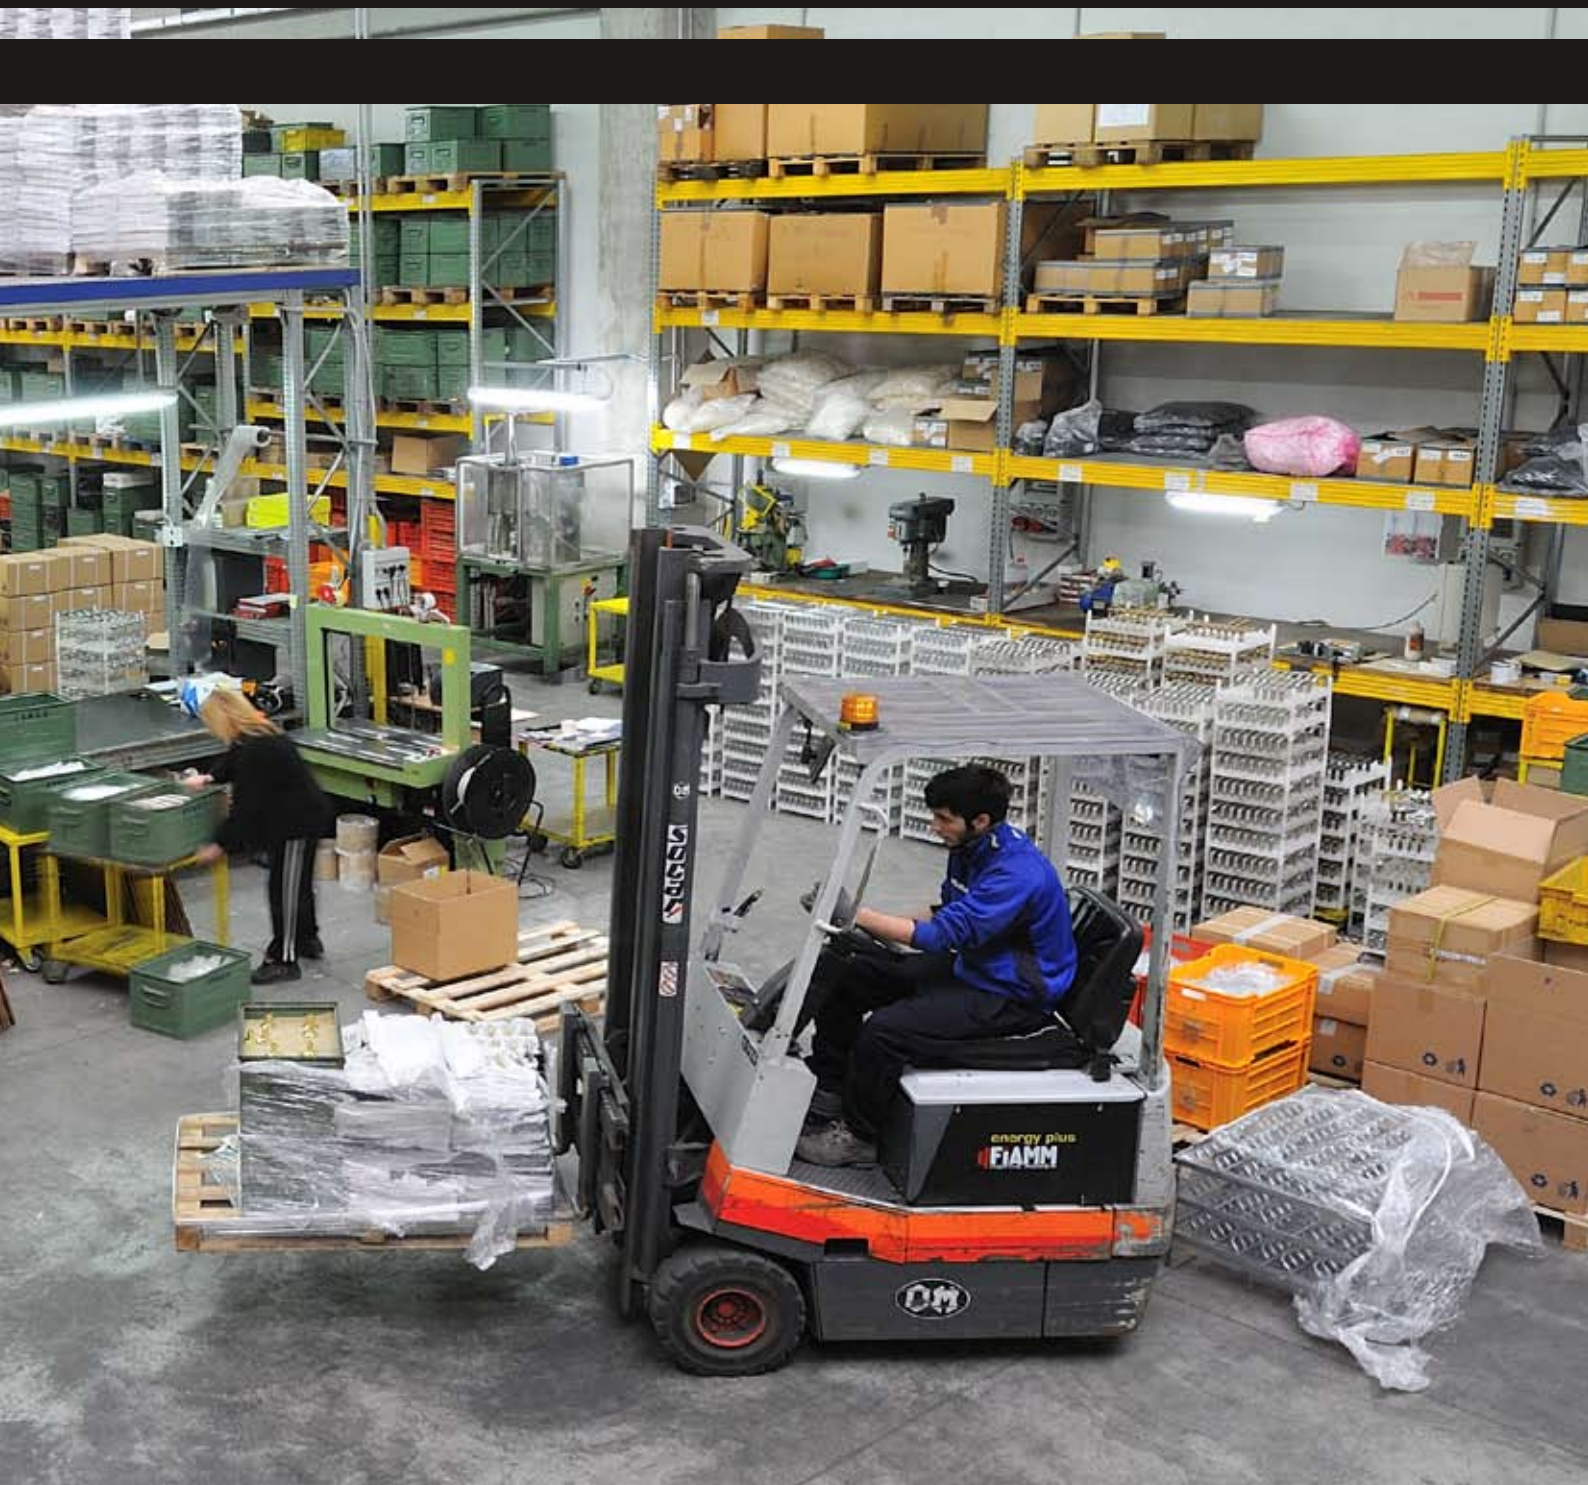
La scelta di materiali sempre di prima qualità, e l'attenzione per l'ambiente sono i tratti distintivi che guidano l'operato di Fimet. In questa scia s'inseriscono a pieno titolo l'attenzione con la quale la nostra azienda studia prima e progetta poi i modelli di maniglie. Oggetti adatti a soddisfare le specifiche esigenze della vasta clientela. Come da tradizione, accurata ricerca di soluzioni tanto tecniche quanto stilistiche volte a venire incontro alle richieste dei nostri clienti sono, esse stesse, la migliore garanzia di una produzione di alta gamma. Non occorre certo sottolineare che la flessibilità e la professionalità insite nelle realizzazione della nostra produzione contraddistinguono la nostra attività. Da sempre Fimet offre un'attenzione particolare alle specifiche esigenze della propria clientela: soluzioni tecniche personalizzate, servizi di vendita e post-vendita mirati fanno parte della nostra cultura aziendale. Fimet è un'azienda che rappresenta nel mondo l'eccellenza produttiva del Made in Italy: la cura per i dettagli, la scelta delle materie prime, la passione che guida i nostri responsabili sono sinonimo di qualità. Non ultime sono giunte, ad arricchire le nostre produzioni le certificazioni classe 3 classe 4, presso l'Istituto IFT e la certificazione antifuoco, come ulteriore segno distintivo che caratterizza la qualità delle nostre produzioni.

DAL 1986

OUR TARGET

The choice of top quality materials and attention to the environment are the hallmarks that guide the work of Fimet. In this path they is fully inserted the care with which our company studies first and then designs the new models of handles. Objects suitable to satisfy the specific needs of its clientele. As per tradition, the careful search for stylistics as well as technical solutions designed to meet the demands of our customers are, themselves, the best guarantee of a high-end production. It is certainly not necessary to emphasize

that the flexibility and professionalism inherent in the realization of our production characterize our activity. Fimet always pays special attention to the specific needs of its customers: customized technical solutions, aimed sales and post-sales services are part of our corporate culture. Fimet is a company that represent in the world the manufacturing excellence of Made in Italy: the attention to detail, the choice of the materials, the passion that drives our managers are synonymous of quality. Not least to enrich our productions we have obtained the class 3 and class 4 certification, at the IFT Institute and the fireproof certification, as a further sign which characterizes the quality of our productions.



AMIAMO IL VERDE

Abbiamo scelto di utilizzare per la nostra produzione, materie prime di qualità. Consapevoli del ruolo che le aziende al giorno d'oggi devono ricoprire per garantire una produzione eco-sostenibile, esigiamo il rispetto delle politiche ambientali e l'utilizzo di sostanze non nocive nei processi produttivi,in conformità con le politiche Europee. Siamo infatti consci che il futuro dei ns. figli dipende da noi, e ci adoperiamo perché possano crescere in un ambiente pulito.

We chose to use for our production, quality materials. Aware of the role that companies nowadays must play to ensure a sustainable production, we demand the respect of environmental policies and the use of non-harmful substances in the production process, in accordance with European policies. Indeed, we are aware that the future of our children depends on us, and we work so that they can grow up in a clean environment.

Qualità e Manutenzione

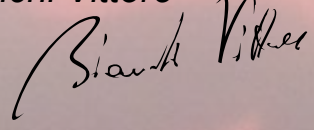
Tutti i prodotti FIMET sono prodotti in conformità alle norme ambientali e con materiali di alta qualità, come da migliore tradizione italiana. La superficie dei prodotti può essere alterata da clima umido con alta percentuale di salinità, piogge acide, solventi, escursioni termiche e l'esposizione ai raggi ultravioletti. I nostri prodotti sono quindi sottoposti a test in nebbia salina in modo da ottenere un dato di riferimento per le nostre garanzie. Il test viene condotto in condizioni ottimali, dove le maniglie sono esposte solo alla nebbia salina. Pertanto, al fine di garantire il risultato ottenuto si consiglia di non utilizzare detergenti corrosivi e detergenti abrasivi o altri prodotti per la pulizia contenenti acido muriatico per la pulizia delle maniglie, ma solo un semplice panno morbido con acqua. Si consiglia inoltre di evitare di installare le maniglie quando l'ambiente è stato appena dipinto, perché l'esalazione della vernice può indebolire la superficie. Anelli, chiavi e oggetti appuntiti, in generale, possono danneggiare la superficie.

Le nostre finiture hanno raggiunto i seguenti risultati nel test in nebbia salina:

Ottone verniciato in cataforesi	*oltre 250 ore*
Bronzo verniciato in cataforesi	*oltre 250 ore*
Cromo galvanizzato	*oltre 250 ore*
Nikel verniciato	*oltre 250 ore*
RAL	*oltre 250 ore*

Inoltre i nostri prodotti sono garantiti per 10 anni contro i difetti meccanici se installati correttamente. FIMET garantisce i propri prodotti esclusivamente quando vengono utilizzati in conformità con le cure necessarie. Danni superficiali causati da uso improprio o ad un'errata installazione non sono coperti da questa garanzia, né sono coperti il normale scolorimento dovuto all'usura o corrosione. Fimet non può in nessun caso essere ritenuta responsabile per danni derivanti da qualsiasi altra causa.

Bianchi Vittore



Quality and Maintenance

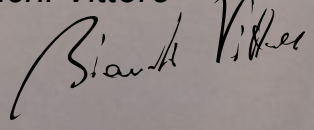
All Fimet products are produced in compliance with environmental rules and with high quality materials, as per best Italian tradition. The surface of the products can be altered by humid climate with high percentage of saltiness, sour rains, solvents, thermal excursions and exposure to ultraviolet rays. Our products are therefore submitted to salt spray test in order to obtain a reference data for our guarantees. The test is carried on optimal conditions, where the handles are exposed only to salt spray. Therefore, in order to guarantee the result obtained, we recommend not to use corrosive detergent and abrasive cleaners or other cleaning products containing muriatic acid when cleaning the handles, but only a plain smooth cloth with water. We recommend also to avoid installing the handles when the room has just been painted, as the exhalation of the varnish can weaken the surface . Rings, keys, and sharp object in general can damage the surface.

Our finishing have reached the following results in the salt spray test :

Cataphoresis varnished brass	beyond 250 hours
Cataphoresis varnished bronze	beyond 250 hours
Galvanized chrome	beyond 250 hours
Galvanized lacquered nickel	beyond 250 hours
RAL	beyond 250 hours

Moreover our products are guaranteed for 10 years against mechanical defects when installed correctly. Fimet guarantees its products solely when used in compliance with the necessary care. Surface damages caused by misuse or wrong installation are not covered by this warranty, nor are covered normal wear discoloration on finished or corrosion. Fimet can't in any case be held responsible for damages resulting from any other cause.

Bianchi Vittore



CUSTOM MADE

Fimet si è sempre distinta per la costante ricerca di idee e soluzioni che possano soddisfare ogni tipo di richiesta, ed è proprio per questo impegno che siamo orgogliosi di presentare la ns. nuova sezione dedicata al CUSTOM MADE, il "fatto su misura". Solitamente ci proponiamo di creare soluzioni innovative adatte alle esigenze dei nostri singoli clienti per poi impostare una produzione in serie. L'obbiettivo di questa nuova sezione è di offrire una soluzione alternativa mediante la creazione di maniglie uniche, studiate e pensate appositamente per i singoli mediante l'utilizzo di macchine a controllo numerico e lavorazione per le quali non è necessario sostenere i costi onerosi di uno stampo. Ci piace l' idea di essere in grado di fornire ai nostri clienti maniglie esclusive senza eguali che possano soddisfare appieno le loro esigenze estetiche e tecniche.

Fimet has always stood for the constant search for ideas and solutions that can satisfy any kind of request, and it is through this commitment that we are proud to present our. new section dedicated to "CUSTOM MADE". Usually we aim to create innovative solutions tailored to the needs of our individual customers and then set up a series production. The objective of this new section is to provide an alternative solution by creating unique handles, studied and designed specifically for the individual through the use of numerical control machines and manufacturing for which it is not necessary to support the high costs of a mould. We like the 'idea of being able to provide our customers with unmatched exclusive handles that can fully satisfy their aesthetic and technical requirements.

MANIGLIE SENZA TEMPO

Le ns. MANIGLIE CLASSICHE che a noi piace chiamare "timeless"
rispecchiano gli stili architettonici del passato, con un tocco
di modernità dato dai materiali utilizzati e dalle finiture moderne
che si adattano ad ogni stile abitativo. Le nostre eleganti porcellane
sono di alta qualità, resistenti ai graffi, la loro lucentezza dura nel tempo
e sono costruite nel rispetto della natura.

Our CLASSIC HANDLES that we like to call “timeless”
reflect the architectural styles of the past with a modern touch given by
the materials used and the modern finishes that fit any lifestyle.
Our elegant porcelain are of high quality, scratch resistant,
their luster lasts over time and are built in harmony with nature.

ICE

fimet
maniglie

ICE

Una serata passata all' Ice bar tra racconti e risate con amici ha ispirato il nome di questa maniglia lineare ed essenziale come il ghiaccio. Un omaggio a quella indimenticabile esperienza.

A night in the Ice bar among chatter and laughter with friends has inspired the name of this handle, linear and essential as an ice cube. A tribute to that unforgettable experience.

CONDIZIONI DI VENDITA

- Tutte le vendite vengono effettuate alle condizioni generali della ditta venditrice e potranno essere modificate solo con atto scritto della medesima.
- Tutte le vendite si intendono fatte "salvo approvazione della ditta".
- I prezzi si intendono franco ns. stabilimento. I prezzi sono sempre da intendersi al netto delle vigenti impostazioni fiscali.
- La merce viaggia a rischio e pericolo del committente anche se la spedizione avviene in porto franco
- Non verrà accettata merce in restituzione se non previo benestare della ditta venditrice.
- La ditta garantisce la ottima qualità dei prodotti e si impegna a sostituire solo il materiale che risultasse difettoso per carenza di costruzione.
  É però espressamente escluso il risarcimento di ogni eventuale danno.
- É nostra cura effettuare le consegne con la massima velocità consentitaci. Non vengono accettate richieste di risarcimento per ritardi di consegna.
- Qualsiasi reclamo sarà valido solamente se viene fatto per iscritto entro il termine di 8 gg. dal ricevimento della merce.
  Il reclamo s'intenderà decaduto qualora il compratore abbia consumato la merce.
  In caso di reclamo giustificato forniremo, per la merce resaci allo stato originale, della merce corrispondente all'ordine.
- Le illustrazioni e i dati tecnici riportati sui nostri cataloghi debbono essere considerati approssimativi potendo i modelli subire delle variazioni e modifiche senza obbligo di preavviso da parte della ditta.
- Per ogni controversia che si venisse a creare tra le parti sarà competente l'autorità giudiziaria di brescia.

TERMS OF SALE

- All sales are made under the Seller's general terms conditions, and modifications may only be made upon written authorisation from the same.
- All sales are intended as "subject to the company's approval".
- Prices are quoted ex works and after deduction of the relevant taxes.
- All goods travel at the Buyer's risk even if despatched carriage free.
- Returned goods will only be accepted upon the Seller's approval.
- The manufacturer guarantees the quality of the products and undertakes to replace only goods found to have workmanship defects.
Damages will not be refunded.
- We will do our utmost to make deliveries as promptly as possible. Claims for delayed deliveries will not be accepted.
- Claims will only be valid if made in writing within 8 days of receipt of the goods. Claims will not be valid if the buyer has used the goods.
In the case of justified claims and goods returned in their original state, we will supply goods corresponding to the order.
- The drawings and technical data shown in our catalogues are to be considered as approximate since the models are subject to variation or modification at any time without prior notice.
- Any disputes between the parties will be put before the Court of Brescia.

VAL SABBIA

LA STORIA

Il patron della nostra azienda, Vittore Bianchi vanta una ricca e lunga esperienza nel settore artigianale. I suoi esordi lavorativi lo hanno visto impegnato nel campo dell'automotive, dove ha affinato le sue naturali doti di curiosità e dedizione per il proprio lavoro e per il prodotto che era intento, di volta in volta, a realizzare. Chiusa questa prima esperienza, si è avvicinato, in qualità di agente di vendita di un prodotto ausiliario (le vernici) al mondo delle maniglie e delle realtà che le producevano. In quella fase, sul finire degli anni Settanta, la terra d'origine di Vittore era già conosciuta come uno dei più importanti distretti industriali delle maniglie. Centinaia di operatori della vallata, con migliaia di collaboratori, erano impegnati in questo settore, espressione del Made in Italy. L'innata curiosità di Vittore ha portato a fondare una azienda che effettuava lavorazioni per conto terzi, nell'ambito dell'articolata filiera produttiva delle maniglie. Questa prima esperienza imprenditoriale era nata durante uno dei periodi più dinamici del distretti delle maniglie valsabbino: non mancavano certo le occasioni per ampliare il proprio business a chi, come Vittore, era dotato di spirito d'intraprendenza. Non è un caso infatti che in nostro fondatore abbia partecipato a fiere e rassegne internazionali del settore, con l'obiettivo di comprendere le esigenze e le specifiche richieste degli operatori internazionali, che erano a contatto con i clienti – aziende e privati – fruitori finali delle maniglie. Forte di questa esperienza, Vittore fonda nel 1986 la Fimet, acronimo di Finitura Metalli. In quell'anno il mercato di riferimento delle produzioni della nuova azienda era quello tedesco ma ora, a distanza di quasi un trentennio dagli esordi, i mercati raggiunti e serviti dalle produzioni dell'azienda della famiglia Bianchi sono oltre venti. I figli di Vittore sono impegnati attivamente nella ditta, Luca è responsabile della qualità e della produzione, mentre Marica è responsabile delle vendite. Il carattere familiare dell'azienda è infatti il suo punto di forza "non ci limitiamo a produrre maniglie, ma ne curiamo ogni aspetto, dalla ideazione fino alla finitura, siamo orgogliosi di rappresentare il made in Italy".

HISTORY

The owner of our company, Vittore Bianchi has a rich and long experience in the craft field. First he has been engaged in the automotive field, where he honed his natural curiosity and dedication to its own work and for the product that he was concentrated, from time to time, to realize. Closed this first experience, he approached, as a sales agent of an auxiliary product (paint), the world of handles and the realities that produced them. At that stage, in the late seventies, the birthplace of Vittore was already known as one of the most important industrial areas of the handles production. Hundreds of entrepreneurs in the valley, with thousands of employees, were engaged in this sector, expression of Made in Italy. The innate Vittore's curiosity, combined with his entrepreneurial spirit, led him to found a company which carried out work for third parties, as part of the articulated chain of the handles production. This first experience was born during one of the most dynamic districts handle Valsabbia: there were some opportunities to expand the business to those who, like Vittore, was endowed with the spirit of enterprise. It is no coincidence that our founder has participated in international exhibitions and fairs of the sector, with the aim to understand the needs and the specific requirements of international operators, who were in contact with the final customers. Based on this experience, Victor founded in 1986 Fimet, acronym of metal finishing. In that year the reference market of the new company was the German one but now, after almost thirty years from the beginning, the markets reached and served by the company of the Bianchi family are over twenty. The children of Vittore are actively involved in the company, Luca is responsible for quality and production, while Marica is responsible for sales. The family nature of the company is its strong point "we do not just produce handles, but we take care of everything from conception to finish, we are proud to represent the Made in Italy".

IL NOSTRO OBIETTIVO

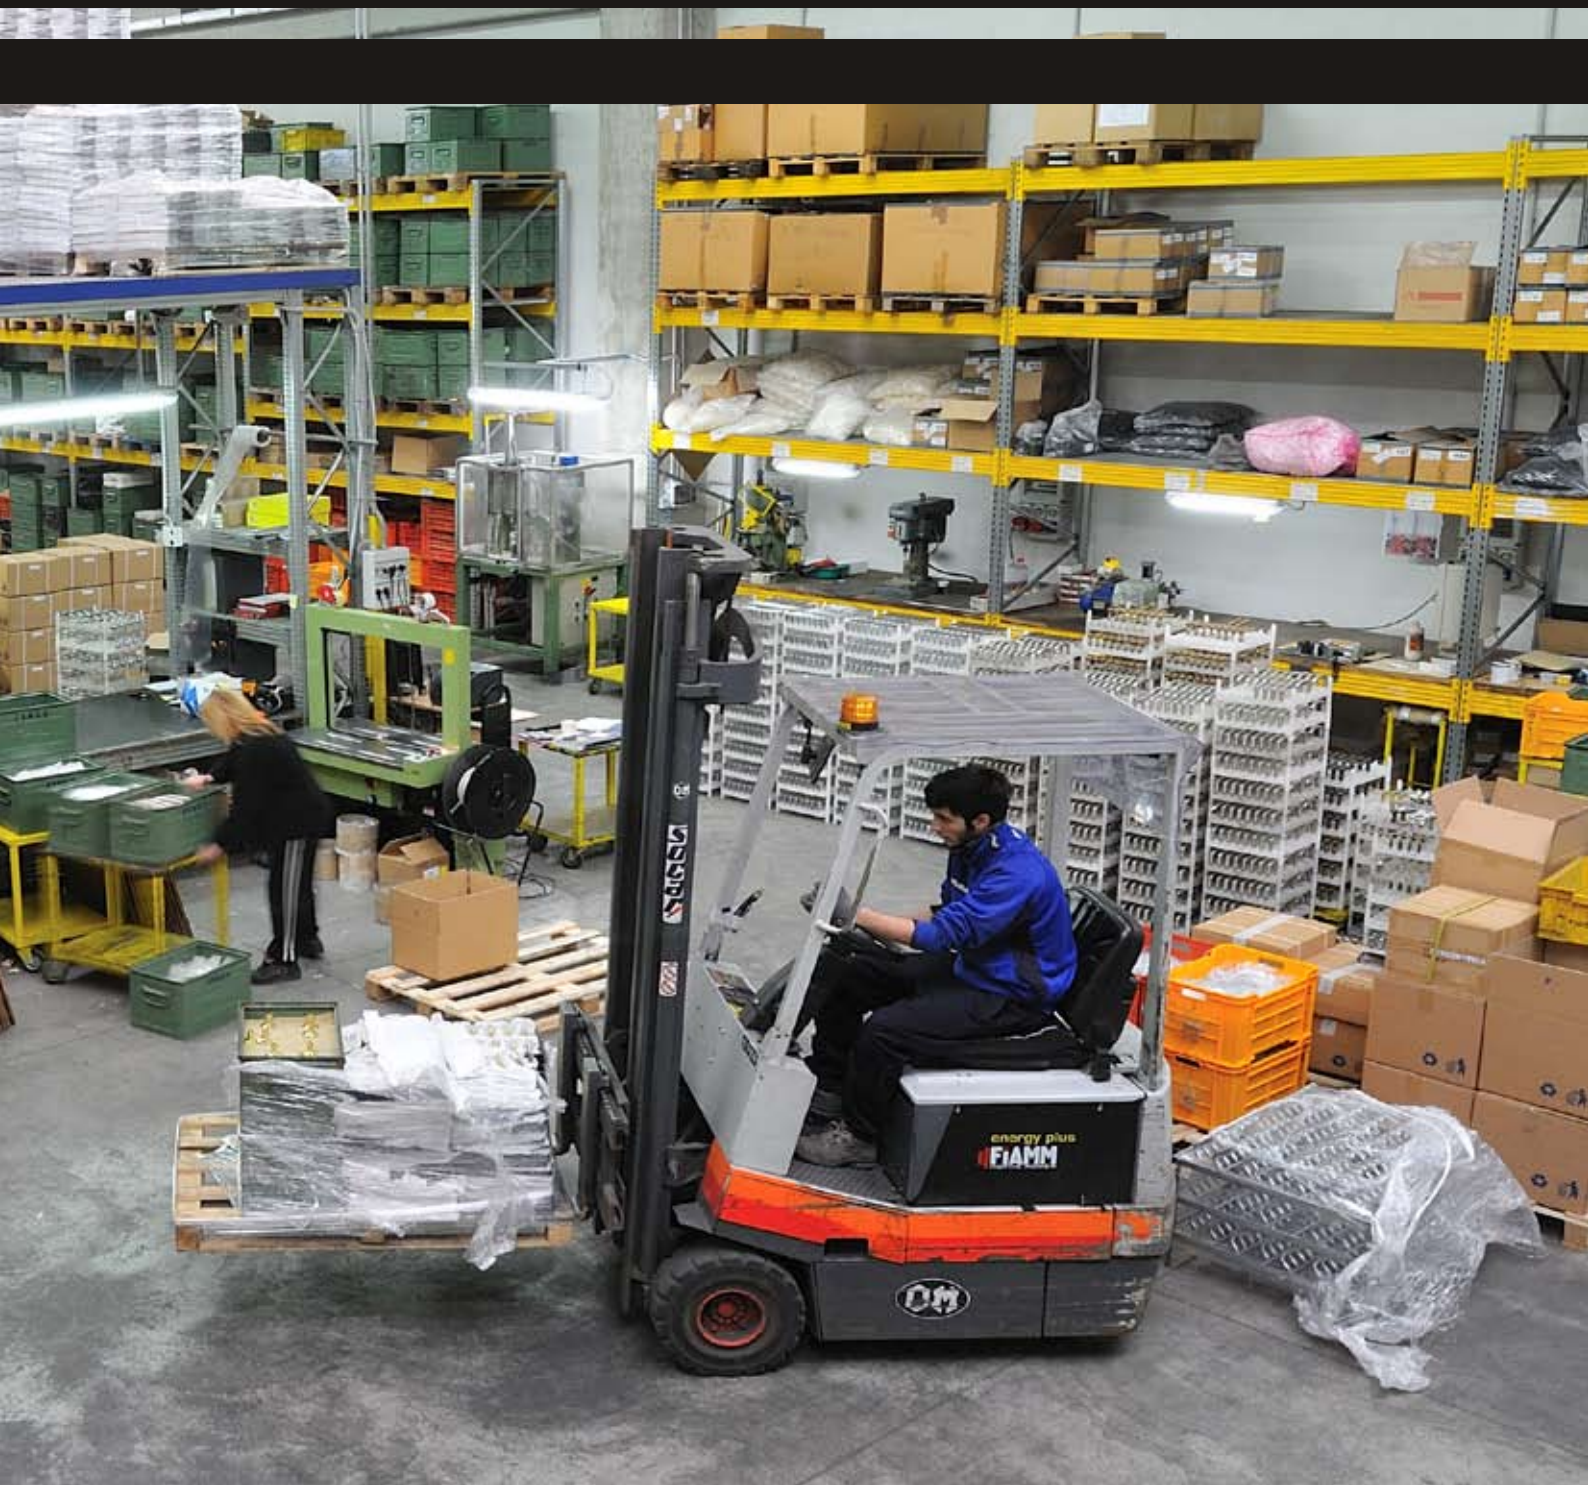
La scelta di materiali sempre di prima qualità, e l'attenzione per l'ambiente sono i tratti distintivi che guidano l'operato di Fimet. In questa scia s'inseriscono a pieno titolo l'attenzione con la quale la nostra azienda studia prima e progetta poi i modelli di maniglie. Oggetti adatti a soddisfare le specifiche esigenze della vasta clientela. Come da tradizione, accurata ricerca di soluzioni tanto tecniche quanto stilistiche volte a venire incontro alle richieste dei nostri clienti sono, esse stesse, la migliore garanzia di una produzione di alta gamma. Non occorre certo sottolineare che la flessibilità e la professionalità insite nelle realizzazione della nostra produzione contraddistinguono la nostra attività. Da sempre Fimet offre un'attenzione particolare alle specifiche esigenze della propria clientela: soluzioni tecniche personalizzate, servizi di vendita e post-vendita mirati fanno parte della nostra cultura aziendale. Fimet è un'azienda che rappresenta nel mondo l'eccellenza produttiva del Made in Italy: la cura per i dettagli, la scelta delle materie prime, la passione che guida i nostri responsabili sono sinonimo di qualità. Non ultime sono giunte, ad arricchire le nostre produzioni le certificazioni classe 3 classe 4, presso l'Istituto IFT e la certificazione antifuoco, come ulteriore segno distintivo che caratterizza la qualità delle nostre produzioni.

DAL 1986

OUR TARGET

The choice of top quality materials and attention to the environment are the hallmarks that guide the work of Fimet. In this path they is fully inserted the care with which our company studies first and then designs the new models of handles. Objects suitable to satisfy the specific needs of its clientele. As per tradition, the careful search for stylistics as well as technical solutions designed to meet the demands of our customers are, themselves, the best guarantee of a high-end production. It is certainly not necessary to emphasize

that the flexibility and professionalism inherent in the realization of our production characterize our activity. Fimet always pays special attention to the specific needs of its customers: customized technical solutions, aimed sales and post-sales services are part of our corporate culture. Fimet is a company that represent in the world the manufacturing excellence of Made in Italy: the attention to detail, the choice of the materials, the passion that drives our managers are synonymous of quality. Not least to enrich our productions we have obtained the class 3 and class 4 certification, at the IFT Institute and the fireproof certification, as a further sign which characterizes the quality of our productions.



AMIAMO IL VERDE

Abbiamo scelto di utilizzare per la nostra produzione, materie prime di qualità. Consapevoli del ruolo che le aziende al giorno d'oggi devono ricoprire per garantire una produzione eco-sostenibile, esigiamo il rispetto delle politiche ambientali e l'utilizzo di sostanze non nocive nei processi produttivi,in conformità con le politiche Europee. Siamo infatti consci che il futuro dei ns. figli dipende da noi, e ci adoperiamo perché possano crescere in un ambiente pulito.

We chose to use for our production, quality materials. Aware of the role that companies nowadays must play to ensure a sustainable production, we demand the respect of environmental policies and the use of non-harmful substances in the production process, in accordance with European policies. Indeed, we are aware that the future of our children depends on us, and we work so that they can grow up in a clean environment.

Qualità e Manutenzione

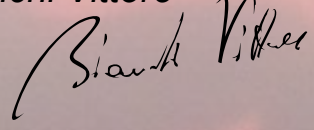
Tutti i prodotti FIMET sono prodotti in conformità alle norme ambientali e con materiali di alta qualità, come da migliore tradizione italiana. La superficie dei prodotti può essere alterata da clima umido con alta percentuale di salinità, piogge acide, solventi, escursioni termiche e l'esposizione ai raggi ultravioletti. I nostri prodotti sono quindi sottoposti a test in nebbia salina in modo da ottenere un dato di riferimento per le nostre garanzie. Il test viene condotto in condizioni ottimali, dove le maniglie sono esposte solo alla nebbia salina. Pertanto, al fine di garantire il risultato ottenuto si consiglia di non utilizzare detergenti corrosivi e detergenti abrasivi o altri prodotti per la pulizia contenenti acido muriatico per la pulizia delle maniglie, ma solo un semplice panno morbido con acqua. Si consiglia inoltre di evitare di installare le maniglie quando l'ambiente è stato appena dipinto, perché l'esalazione della vernice può indebolire la superficie. Anelli, chiavi e oggetti appuntiti, in generale, possono danneggiare la superficie.

Le nostre finiture hanno raggiunto i seguenti risultati nel test in nebbia salina:

Ottone verniciato in cataforesi	*oltre 250 ore*
Bronzo verniciato in cataforesi	*oltre 250 ore*
Cromo galvanizzato	*oltre 250 ore*
Nikel verniciato	*oltre 250 ore*
RAL	*oltre 250 ore*

Inoltre i nostri prodotti sono garantiti per 10 anni contro i difetti meccanici se installati correttamente. FIMET garantisce i propri prodotti esclusivamente quando vengono utilizzati in conformità con le cure necessarie. Danni superficiali causati da uso improprio o ad un'errata installazione non sono coperti da questa garanzia, né sono coperti il normale scolorimento dovuto all'usura o corrosione. Fimet non può in nessun caso essere ritenuta responsabile per danni derivanti da qualsiasi altra causa.

Bianchi Vittore



Quality and Maintenance

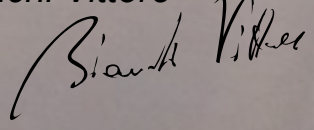
All Fimet products are produced in compliance with environmental rules and with high quality materials, as per best Italian tradition. The surface of the products can be altered by humid climate with high percentage of saltiness, sour rains, solvents, thermal excursions and exposure to ultraviolet rays. Our products are therefore submitted to salt spray test in order to obtain a reference data for our guarantees. The test is carried on optimal conditions, where the handles are exposed only to salt spray. Therefore, in order to guarantee the result obtained, we recommend not to use corrosive detergent and abrasive cleaners or other cleaning products containing muriatic acid when cleaning the handles, but only a plain smooth cloth with water. We recommend also to avoid installing the handles when the room has just been painted, as the exhalation of the varnish can weaken the surface . Rings, keys, and sharp object in general can damage the surface.

Our finishing have reached the following results in the salt spray test :

Cataphoresis varnished brass	beyond 250 hours
Cataphoresis varnished bronze	beyond 250 hours
Galvanized chrome	beyond 250 hours
Galvanized lacquered nickel	beyond 250 hours
RAL	beyond 250 hours

Moreover our products are guaranteed for 10 years against mechanical defects when installed correctly. Fimet guarantees its products solely when used in compliance with the necessary care. Surface damages caused by misuse or wrong installation are not covered by this warranty, nor are covered normal wear discoloration on finished or corrosion. Fimet can't in any case be held responsible for damages resulting from any other cause.

Bianchi Vittore



CUSTOM MADE

Fimet si è sempre distinta per la costante ricerca di idee e soluzioni che possano soddisfare ogni tipo di richiesta, ed è proprio per questo impegno che siamo orgogliosi di presentare la ns. nuova sezione dedicata al CUSTOM MADE, il "fatto su misura". Solitamente ci proponiamo di creare soluzioni innovative adatte alle esigenze dei nostri singoli clienti per poi impostare una produzione in serie. L'obbiettivo di questa nuova sezione è di offrire una soluzione alternativa mediante la creazione di maniglie uniche, studiate e pensate appositamente per i singoli mediante l'utilizzo di macchine a controllo numerico e lavorazione per le quali non è necessario sostenere i costi onerosi di uno stampo. Ci piace l' idea di essere in grado di fornire ai nostri clienti maniglie esclusive senza eguali che possano soddisfare appieno le loro esigenze estetiche e tecniche.

Fimet has always stood for the constant search for ideas and solutions that can satisfy any kind of request, and it is through this commitment that we are proud to present our. new section dedicated to "CUSTOM MADE". Usually we aim to create innovative solutions tailored to the needs of our individual customers and then set up a series production. The objective of this new section is to provide an alternative solution by creating unique handles, studied and designed specifically for the individual through the use of numerical control machines and manufacturing for which it is not necessary to support the high costs of a mould. We like the 'idea of being able to provide our customers with unmatched exclusive handles that can fully satisfy their aesthetic and technical requirements.

MANIGLIE SENZA TEMPO

Le ns. MANIGLIE CLASSICHE che a noi piace chiamare "timeless"
rispecchiano gli stili architettonici del passato, con un tocco
di modernità dato dai materiali utilizzati e dalle finiture moderne
che si adattano ad ogni stile abitativo. Le nostre eleganti porcellane
sono di alta qualità, resistenti ai graffi, la loro lucentezza dura nel tempo
e sono costruite nel rispetto della natura.

Our CLASSIC HANDLES that we like to call “timeless”
reflect the architectural styles of the past with a modern touch given by
the materials used and the modern finishes that fit any lifestyle.
Our elegant porcelain are of high quality, scratch resistant,
their luster lasts over time and are built in harmony with nature.

maniglie

MICHELLE

Una calma giornata d’estate, tra le dolci note dei Beatles, dalla mia matita uscirono i primi tratti della classica ma sempre attuale maniglia Michelle.

A quiet summer day, among the sweet notes of the Beatles’ songs, from my pencil the first lines of the classic, but always up to date handle Michelle.

ANNA

fimet
maniglie

ANNA

Ricordo di un’esperienza presso un’ importante fiera dove una giovane donna chiese di creare una nuova maniglia, le sue richieste furono così precise e dettagliate che le prime forme uscirono di getto. A lei è dedicata la nostra maniglia Anna.

A souvenir from an important fair where a young Lady asked to create a new handle, her request was so precise and detailed that the first sketches almost drawn themselves. This handle is dedicated to her.

maniglie

ICE

Una serata passata all' Ice bar tra racconti e risate con amici ha ispirato il nome di questa maniglia lineare ed essenziale come il ghiaccio. Un omaggio a quella indimenticabile esperienza.

A night in the Ice bar among chatter and laughter with friends has inspired the name of this handle, linear and essential as an ice cube. A tribute to that unforgettable experience.

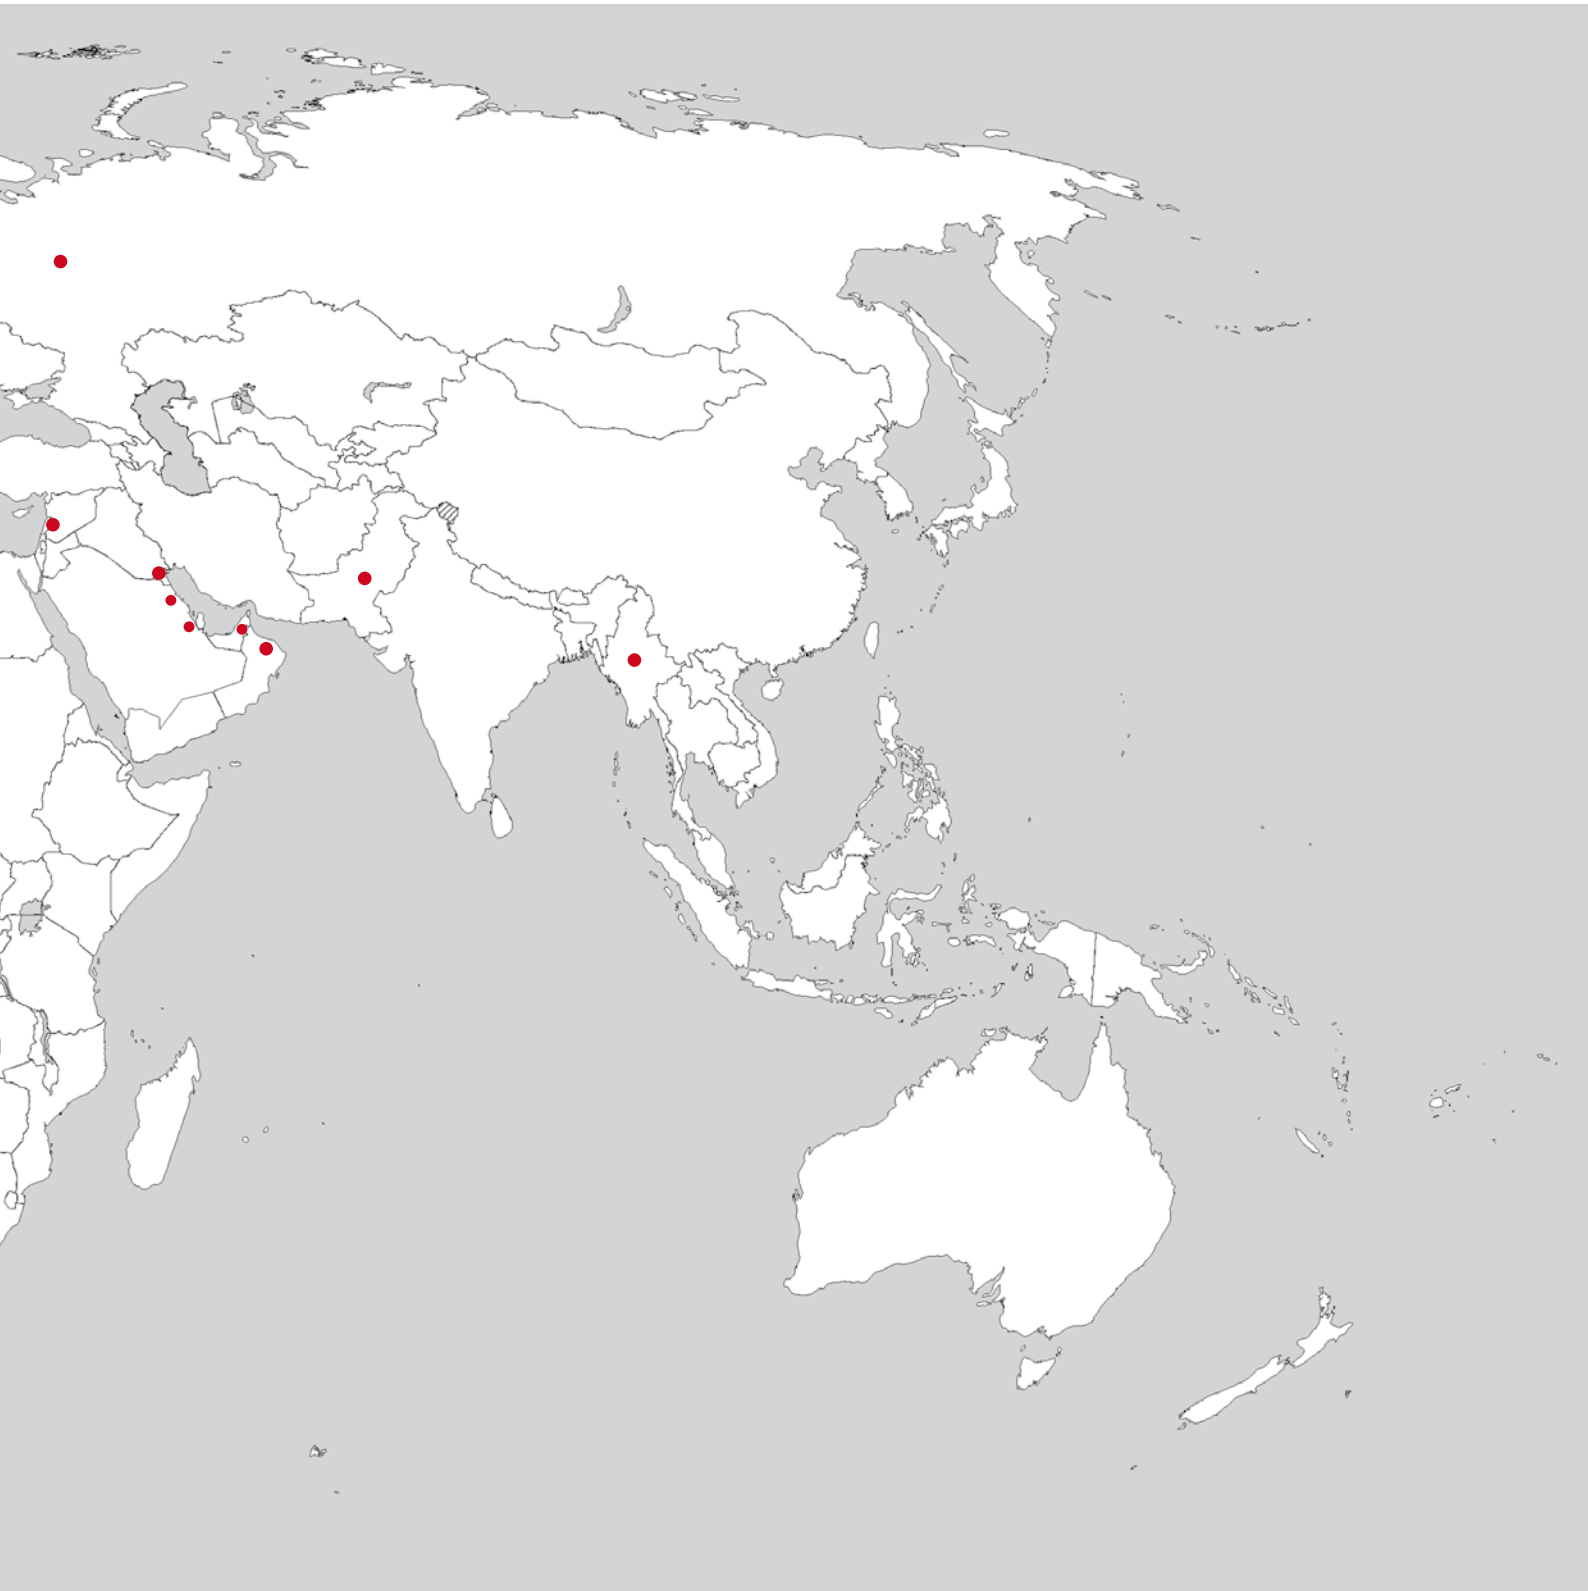
IN THE WORLD



CONDIZIONI DI VENDITA

- Tutte le vendite vengono effettuate alle condizioni generali della ditta venditrice e potranno essere modificate solo con atto scritto della medesima.
- Tutte le vendite si intendono fatte "salvo approvazione della ditta".
- I prezzi si intendono franco ns. stabilimento. I prezzi sono sempre da intendersi al netto delle vigenti impostazioni fiscali.
- La merce viaggia a rischio e pericolo del committente anche se la spedizione avviene in porto franco
- Non verrà accettata merce in restituzione se non previo benestare della ditta venditrice.
- La ditta garantisce la ottima qualità dei prodotti e si impegna a sostituire solo il materiale che risultasse difettoso per carenza di costruzione.
  É però espressamente escluso il risarcimento di ogni eventuale danno.
- É nostra cura effettuare le consegne con la massima velocità consentitaci. Non vengono accettate richieste di risarcimento per ritardi di consegna.
- Qualsiasi reclamo sarà valido solamente se viene fatto per iscritto entro il termine di 8 gg. dal ricevimento della merce.
  Il reclamo s'intenderà decaduto qualora il compratore abbia consumato la merce.
  In caso di reclamo giustificato forniremo, per la merce resaci allo stato originale, della merce corrispondente all'ordine.
- Le illustrazioni e i dati tecnici riportati sui nostri cataloghi debbono essere considerati approssimativi potendo i modelli subire delle variazioni e modifiche senza obbligo di preavviso da parte della ditta.
- Per ogni controversia che si venisse a creare tra le parti sarà competente l'autorità giudiziaria di brescia.

TERMS OF SALE

- All sales are made under the Seller's general terms conditions, and modifications may only be made upon written authorisation from the same.
- All sales are intended as "subject to the company's approval".
- Prices are quoted ex works and after deduction of the relevant taxes.
- All goods travel at the Buyer's risk even if despatched carriage free.
- Returned goods will only be accepted upon the Seller's approval.
- The manufacturer guarantees the quality of the products and undertakes to replace only goods found to have workmanship defects.
Damages will not be refunded.
- We will do our utmost to make deliveries as promptly as possible. Claims for delayed deliveries will not be accepted.
- Claims will only be valid if made in writing within 8 days of receipt of the goods. Claims will not be valid if the buyer has used the goods.
In the case of justified claims and goods returned in their original state, we will supply goods corresponding to the order.
- The drawings and technical data shown in our catalogues are to be considered as approximate since the models are subject to variation or modification at any time without prior notice.
- Any disputes between the parties will be put before the Court of Brescia.
